

Tejas S. Jawalkar

Full Stack .Net Developer | C# | .NET Core | Angular | SQL Server | Layered Architecture | Agile & SAFe

Hadapsar, Pune, 411028 | +91-9172804246 | tejassj1998@gmail.com | [LinkedIn](#) | [Profile](#)

PROFESSIONAL SUMMARY

Full Stack .Net Developer with 3+ years of experience developing enterprise web applications using C#, .NET Core, ASP.NET Core, Angular, and SQL Server. Experienced in backend development, REST API design, performance optimization, and full-stack delivery across healthcare and government domains. Strong understanding of OOP, SDLC, Agile and SAFe methodologies, and building scalable, maintainable applications.

KEY ACHIEVEMENTS

- 90% query performance improvement — Optimized stored procedures and execution plans in a high-traffic healthcare system serving thousands of daily clinical workflows.
- 80% data processing reduction — Redesigned relational database queries and processing logic for an education platform handling 10K+ student records.
- Production modules delivered end-to-end — Led independent delivery including client interaction, testing, and post-release support.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Frameworks: ASP.NET Core, ASP.NET Web API, Entity Framework Core, LINQ, Dapper

Frontend: Angular, RxJS, Angular Material, HTML5, CSS3, Bootstrap

Databases: SQL Server, Oracle 12c, Stored Procedures, Query Optimization, Execution Plan Analysis

Architecture & Design: OOP, SOLID Principles, Layered Architecture, Dependency Injection, Repository Pattern, Facade Pattern

APIs & Testing: REST APIs, Swagger, xUnit, Moq, API Testing, Integration Testing

AI & Developer Tools: GitHub Copilot, AI-assisted coding, code generation, debugging, refactoring, prompt-based development

DevOps & Tools: Git, TeamCity, TFS, SonarQube, CI/CD, IIS, Azure Key Vault

Practices: SDLC, Agile, SAFe Agile, Sprint Planning.

PROFESSIONAL EXPERIENCE

.Net Full Stack Developer | Brainlines Solutions Pvt. Ltd. (Client: T-Systems ICT India)

Jan 2025 – Present

iMedOne Healthcare System

- Delivered 2 sprint cycles of healthcare workflow modules by gathering requirements from clinical stakeholders and translating them into feature specifications with zero post-release critical defects.
- Refactored monolithic healthcare module into layered facade-pattern architecture, reducing unit test execution time by 30% and enabling parallel feature development across teams.
- Optimized complex SQL queries and stored procedures using execution plan analysis, achieving 90% improvement in data retrieval performance across critical clinical workflows.
- Designed loosely coupled components using Dependency Injection and Repository Pattern, improving testability with xUnit and Moq and enabling modular development.
- Developed TypeScript and Angular-based UI enhancements integrated with ASP.NET Core backend services for healthcare application workflows.
- Resolved production incidents by analyzing application logs, debugging distributed system issues, and providing post-release support ensuring high system availability.
- Collaborated in SAFe Agile environment with cross-functional teams, participating in sprint planning, code reviews, and PI planning ceremonies.

Internal Engineering Initiative — Structured Logging Framework

- Designed and implemented a reusable structured logging framework using Serilog with custom SQL persistence, request traceability, and configurable enrichment.
- Enabled centralized diagnostics across application modules with environment-based configuration for simplified team adoption.

Software Engineer (Full Stack Developer) | Splashgain Technology Solutions Pvt. Ltd.

Aug 2022 – Jun 2024

ePravesh — MHT CET Agriculture Admission & Merit System

- Developed and enhanced REST APIs using .NET Core and built Angular-based UI modules with Angular Material, reducing page load times by 35% for high-volume government admission processing.
- Analyzed admission data across multiple databases using cross-DB SQL queries to generate statistical reports for regional student profiles.
- Collaborated with government clients for requirement gathering and solution design aligned with domain-specific compliance needs.
- Maintained source control and deployment activities using Git-based workflows and CI/CD practices.

ERP — Skill Development Center Management System

- **Reduced data processing time by 80%** by designing relational databases, writing optimized SQL queries, and implementing unit testing across attendance, result generation, and exam management modules.
- Built features for seat allocation, course creation, timetable management, and bulk admit-card generation — eliminating 100% of manual processing.
- Led client interactions, performance optimization, and migration activities; managed end-to-end delivery independently.
- Gathered business requirements, conducted user demonstrations, and provided on-call application support to students and stakeholders during critical admission periods, ensuring timely issue resolution and uninterrupted application availability.

Photocopy & Revaluation System

- Assisted in creating RESTful APIs to support dynamic frontend requirements; conducted unit testing to ensure code reliability.
- **Linked two distinct databases within a single project environment** via API-driven data fetching, improving data integrity and reducing issue resolution time by 40%.
- Managed photocopy and revaluation process workflows, client reporting, and performance tuning across production deployments.

Software Engineer Intern (Full-Time) | Splashgain Technology Solutions Pvt. Ltd.

Jan 2022 – Jul 2022

- Contributed to REST API development and database design using .NET Core and SQL Server, applied SOLID principles and participated in code reviews and agile delivery cycles.
- Reduced issue resolution time by 40% through debugging, log analysis, and production troubleshooting.

EDUCATION

Master of Computer Applications (MCA) — Punyashlok Ahilyadevi Holkar Solapur University, Solapur. 2019 – 2022

Bachelor of Computer Applications (BCA) — Hirachand Nemchand College, Solapur 2016 – 2019

LANGUAGES

English (Professional) **Hindi** (Proficient) **Marathi** (Native)
